

we build your world

The company **“Afoi D. Printzi Granitis”** was founded in 1964 by **George Printzis** and **Emmanouil Printzis**. For over forty-two years it is specialized in the section of manufacture and in particular in the production of bricks.

It is one of the first of the relevant industries that were founded in northern Greece and until today supplies with its products a big part of the domestic and foreign market.

The company’s founders have managed to acquire large experience in the area of production and trade of ceramic materials, as well as in the field of their application, the area of construction.

This experience and knowledge has rendered the company **“Afoi D. Printzi Granitis”** one of the basic suppliers of public and private constructions.

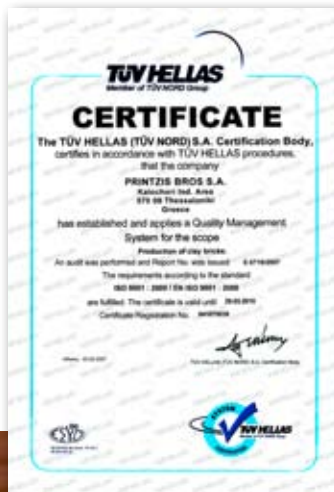

The company’s sales net covers a large part of the central, east and west Macedonia, of Thrace and of the islands of the south Aegean while it progressively expands to the central and south Greece.

Our company has also an outstanding position in the area of exports, since large quantities of its products are exported to the Balkan countries (Bulgaria, Albania, Romania, Scopia etc).

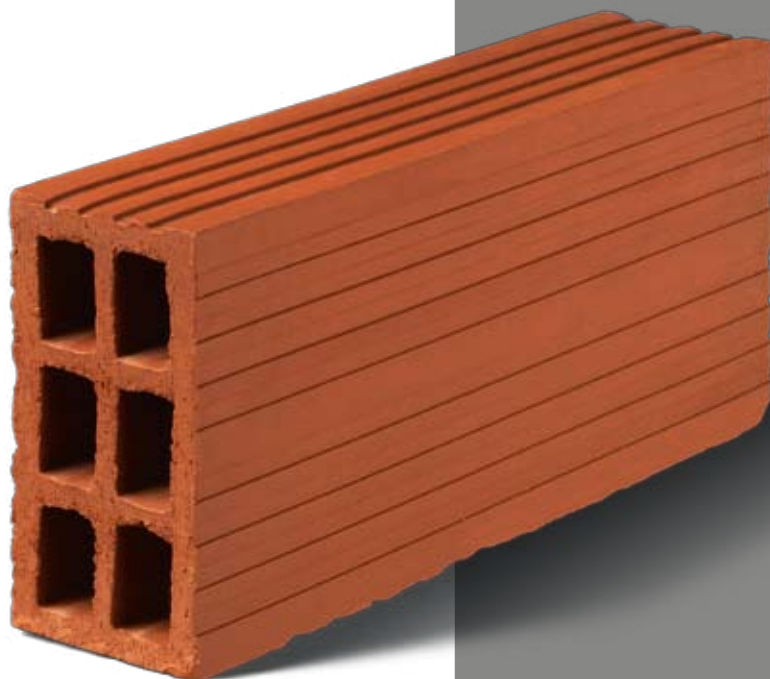

Our company, throughout its function for many years, has fairly won the reputation of a clay industry which provides high quality products and reliable services always according to the greek and european standards and legislation. All our products are ecological and are produced with respect to nature and to the environment.

The company's new administration, which comprehends the new movements of progress in the area of ceramic technology in conjunction with the application of the new european standards and regulations (**EN 771-1, CE**), has established and applies a quality management system according to the standard **ELOT EN ISO 9001:2000** and operates a fully equipped laboratory of quality control of its products.
